ABOUT QUALVISION

For over a decade, Qualvision Technology has been a reliable provider of OEM/ODM services in the security industry. Our product range includes video intercom systems, IP video surveillance systems, hybrid HD video surveillance systems, and more. We are committed to helping our brand partners achieve greater success.

We have set up four advanced R&D centers in China and a processing center in Vietnam. Not only do we provide modern devices, but we also offer cloud technology and services. Our confidence comes from our leading technologies, which match the best in the industry, allowing us to offer personalized services.

Our factory in China covers over 20,000 square meters, and the Vietnam facility spans more than 4,000 square meters with 50 employees. This large space shows our extensive professional experience. Additionally, we have helped many partners set up their own manufacturing bases.

SECURE OUR LIFE THROUGH QUALITY VISION

BUSINESS PHILOSOPHY

Mission

Customer First: Focusing on customer challenges and pressures, providing competitive products and solutions.

Vision

One of the leading OEM/ODM suppliers of physical security.

SUPERIOR ARTIFICIAL INTELLIGENCE

iQSense+

Enhanced by advanced deep learning algorithms, iQSense+ effectively implements human and vehicle detection, motorcycle vehicle detection, face detection, people counting and loitering detection across a variety of complex environments. This integration allows both enterprise and residential users to efficiently allocate security resources to genuine threats. The performance metrics are impressive:

- Detection (Human & Vehicle) accuracy rate up to 99%
- Human detection distance up to 35m/115ft Daytime
(Distance at night may vary depending on the scene)
- Vehicle detection distance up to 60m/196ft
(2.8mm fixed-focal camera)

Lite AI

Qualvision's Lite AI technology boasts excellent accuracy in identifying people, vehicles, and non-motorized vehicles, paired with entry-level products to achieve cost-effective applications. The specific test data is as follows:

- Detection (Human & Vehicle) accuracy rate up to 99%
- Human detection distance up to 25m/82ft Daytime
(Distance at night may vary depending on the scene)
- Vehicle detection distance up to 60m/196ft
(2.8mm fixed-focal camera)

ColorView

A revolutionary color imaging technology boasting numerous cutting-edge configurations. With its 24/7 full color capability, F1.0 large aperture, spacious BSI image sensor, and state-of-the-art advanced AI-ISP, it sets a new standard for unparalleled image quality and performance. Whether it's day or night, this powerhouse ensures you capture vibrant, feel like colors with exceptional clarity and detail. Elevate your imaging experience with ColorView.

Smart Dual Light

Qualvision's Smart Dual Light product provides cost-effective and efficient image recording. It seamlessly transitions between warm and infrared lighting, capturing full-color images for suspicious events at night. Customizable lighting schedules offer flexible operation planning, reducing daily life disruptions. With warm light deterrence technology, it proactively enhances property security, adapting to diverse applications.

Active Deterrence

The Active Deterrence product elevates camera defense capabilities to a whole new level with its active deterrence features. Equipped with a powerful alarm system, red and blue strobe lights, and two-way talk functionality, it offers instant protection precisely when you need it. Customize your siren voice to tailor your security setup to various scenarios. Choose Active Deterrence for personalized, on-demand security that ensures peace of mind.

Smart Triple Light

The Smart Triple Light product is your better choice for a nighttime security solution. Featuring infrared, warm light, and red-blue strobe lights, this advanced technology delivers both black-and-white and full-color modes, ensuring superior visibility in any condition. When an alarm is triggered, the red-blue lights flash to deter suspicious individuals, adding an extra layer of active deterrence to your security. Versatile and adaptable to various scenarios, Smart Triple Light product provides the perfect illumination for every situation.

Auto Tracking 2.0

Auto Tracking 2.0 upgrades its algorithm for enhanced tracking of people and vehicles. When a target activates the Intelligent Video Surveillance (IVS) rules, PTZ cameras with this technology use pan, tilt, and zoom to lock on precisely. Advanced AI predicts object movements, ensuring accurate tracking even in complex situations. Key benefits include:

- Continuous tracking in crowds.
- Adaptive zoom to keep targets in view.
- Reliable tracking of fast-moving vehicles.

Starlight

Experience unparalleled clarity in the darkest environments with our advanced Starlight technology. Designed for superior low-light performance, whether it's monitoring outdoor spaces at night or ensuring security in dimly lit areas, Starlight technology captures every detail with precision. Upgrade to Starlight and see the night in a whole new light.

PanoView

Qualvision's PanoView technology has revolutionized security cameras, expanding their coverage to capture vast panoramas, significantly enhancing video security. PanoView offers three panoramic imaging methods:

- Single sensor with a unique fisheye lens, achieving ultra-wide angles while ensuring minimal distortion.
- Seamless stitching of multiple images using advanced algorithms and multiple sensors.
- Multi-directional views from individual channels, providing a variety of perspectives.

RAID

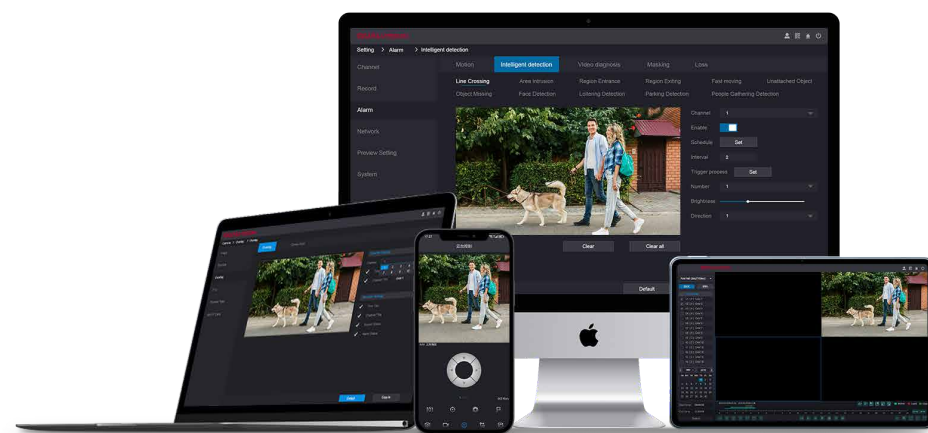

In Qualvision's storage solutions, we offer a range of RAID configurations, including RAID 0, 1, 5, and 10, to cater to your data protection and performance needs. When hard drives within your RAID array experience failures, our systems provide a seamless solution. By employing a function that calculates and reconstructs the RAID configuration, we ensure that data from the remaining healthy hard drives is efficiently supplied to the newly introduced replacement drive. This means that your data remains accessible and protected, minimizing downtime and potential data loss. With Qualvision's RAID technology, your data remains safeguarded even in the face of hardware failures.

N+1 Hot Spare

Qualvision's N+1 Hot Spare feature ensures uninterrupted system operation even in the event of an NVR failure. When the primary NVR (referred to as NVR X) experiences a breakdown, the standby NVR seamlessly steps in to take over its functions, ensuring continuous system functionality.

Our Standby NVR technology is designed to handle the transition smoothly, and once the network is restored, recorded video seamlessly transfers back to the original NVR (NVR 1). It's important to note that our backup NVR can efficiently take over one offline device at a time, ensuring a robust and resilient surveillance system that minimizes disruptions and data loss. With Qualvision's N+1 Hot Spare feature, you can trust in the reliability and continuity of your surveillance infrastructure.

User Experience

- Cross-platform and uniform design for end users easy to learn and easy to use.
- Cloud servers deployed worldwide for faster access and connection remotely.
- Supports various web browsers, such as Google Chrome, Firefox, and Edge.
- Supports both Windows and macOS on desktop computers.
- Supports a wide range of Android and iOS mobile phones.

PTZ Products

Qualvision's PTZ cameras redefine surveillance. While the IR models deliver clear images even in total darkness, making them ideal for 24/7 monitoring, the Active Deterrence PTZ cameras take it a step further—precisely tracking the moving human and vehicle to prevent incidents. When an alarm is triggered, Auto Tracking 2.0 uses adaptive zoom to keep targets in view, even with obstructions or rapid movement. The red and blue lights flash to deter threats, the speaker issues voice warnings, and the two-way talk function enables real-time communication.

Model	QV-IPD6A81CQ81-FP	QV-IPD69513Q51-FP
Appearance		
Max. Image Resolution	8MP (3840 × 2160)@ 25fps	5MP (2592 × 1944) @ 20fps
Image Sensor	1/1.8" Progressive Scan CMOS Sensor	1/2.8" Progressive scan CMOS Sensor

Protection Level	IP66
Dimensions	Φ 185.0 × 313.1 mm (Φ 7.3" × 12.3")

IPC Ultra Series

The Ultra series products feature distinct designs tailored to various usage scenarios. This series utilizes the advanced iQSense deep learning algorithm for precise human and vehicle detection, enhancing perimeter protection by reducing false alarms. These enhancements collectively elevate the overall security and reliability of the system.

Pro Series - ColorView

Experience unparalleled security with Qualvision Pro Series - ColorView IPCs, the pinnacle of the smart defense concept. Featuring advanced Colorview technology for vibrant, true-to-life colors even in low light, enhanced iQSense for greater accuracy in person and vehicle detection.

Key features

- 24/7 High-quality, full-color images
- 1.8-inch image sensor with an F1.0 aperture for exceptional image quality
- 130dB True WDR
- Comprehensive monitoring capabilities

Pro Series - iQSense+

Qualvision's Pro Series - iQSense+ is designed for those who demand high performance at an affordable price. This series leverages the advanced iQSense+ deep learning algorithm to accurately detect the human, vehicle, and motorcycle vehicle, reducing false alarms with precision loitering and face detection. Enhanced by Active Deterrence, the Pro Series amplifies security with powerful alarm sounds and lights, ensuring prompt and effective crime deterrence.

Key features

- Precise VCA functions with iQSense technology
- Active deterrence functionality
- Efficient H.265 & H.265+ compression

IPC Value Series

Qualvision Value Series IPCs offer intelligent, straightforward, and cost-effective solutions. With essential features like WDR, starlight, easy AI, active deterrence, smart triple light and smart dual illumination technology, this series sets the standard for distribution markets. Choose Qualvision Value Series IPCs for budget-friendly, feature-rich options.

Key features

- Affordable easy AI
- Smart triple light
- Smart dual light
- Active deterrence
- Efficient H.265 & H.265+ compression

IPC Seco Series

Qualvision Seco Series is an affordable solution equipped with smart dual illumination technology. Seco Series IPCs also feature DWDR, smart motion detection (human & vehicle) and perimeter protection (human & vehicle), ensuring high-quality performance and enhanced security at a budget-friendly price.

NVR Ultra Series

The Qualvision Ultra Series NVRs offer superior storage and robust recording capabilities. They enable video decoding and output in up to 8K resolution, thanks to advanced hardware and powerful 8-core SOCs (RA series). The Ultra Series is the ideal option for professional surveillance projects.

Key features

- Supports up to 128-ch access and accommodates 16 HDDs for storage
- Decodes up to 8 channels in 4K, 16 channels in 4M, or 32 channels in 1080p
- Provides RAID 0, RAID 1, RAID 5, and N+1 hot spare support, enhancing data storage reliability and reducing the risk of data loss
- Features dual 2.5Gbps network connectivity and supports four independent HDMI displays
- Offers up to 1Gbps bandwidth

NVR Pro Series

Qualvision Pro Series NVRs offer exceptional performance and value, delivering efficient bandwidth and storage management. These NVRs feature plug-and-play functionality, allowing easy access to IP cameras and supporting a wide range of smart camera-side functions. Additionally, in the near future, this series will introduce advanced intelligence features on the NVR side. The Pro Series is the perfect solution for small to medium-sized businesses.

Key features

- Search for detected alarms by event playback
- Plug-in free
- Up to 4 channels of 4K or 16 channels of 1080p decoding
- Long-distance network transmission, reaching up to 300 meters
- Dual 1000Mbps network ports and dual HDMI display support
- Compatibility with people counting cameras, PTZ cameras, fisheye cameras, dual-lens cameras

UVC Pro Series

The Qualvision Pro Series UVCs are ideal for SMB solutions and projects demanding top-notch reliability and flexibility. These cameras boast true WDR, ensuring clear and detailed images even in challenging lighting conditions. Moreover, the series offers models that deliver full-color images day and night.

Key features

- Up to 4K high-quality imaging
- True WDR for superior image quality
- 24/7 availability of full-color imaging
- 4-in-1 video output for versatile connectivity
- Audio over coaxial for enhanced functionality

Model	QV-UVC84B1E	QV-UVC84T9B	QV-UVC84E8B
Appearance	 	 	 
Max. Image Resolution	8MP (3840 × 2160) @ 15fps		
Image Sensor	1/2.8" CMOS Sensor

UVC Value Series

Qualvision Value Series UVCs offer simple and highly cost-effective HD solutions, meeting the requirement of 24/7 reliable monitoring with high-quality image performance, and saving budget for customers on both devices and labor. Its structural flexibility and high cost-performance makes the camera an ideal choice for SMB solutions.

Key features

- Cost-effective saving your budget
- 24/7 full-color available
- Smart dual light available
- 4-in-1 video output
- Audio over coaxial

UVR Pro Series

Qualvision Pro Series UVRs support 4K HD video recording, 4K resolution output, and adopt deep learning technology. They support smart motion detection, perimeter protection, face detection, etc. The Pro Series is the ideal solution for distribution and small to medium-sized businesses.

Key features

- Smart Motion Detection with human and vehicle classification
- 5-in-1 adaptive signal input (TVI/AHD/CVI/CVBS/IP)
- Network camera access capability
- Ultra HD, compatible with cameras of up to 4K resolution
- Audio over coaxial

UVR Value Series

Qualvision Value Series UVRs offer cost-effective and high-quality video security. They deliver high-quality video monitoring with H.265 Pro+ and H.265 compression technologies, up to 5 MP HD encoding ability, and great durability. In addition, UVRs can support smart motion detection and perimeter protection even if not supported by cameras.

Key features

- Smart Motion Detection with human and vehicle classification
- 5-in-1 Adaptive signal input(TVI/AHD/CVI/CVBS/IP)
- Network camera access capability
- Ultra HD, compatible with cameras of up to 4K resolution
- Audio over coaxial

UVR Seco Series

Qualvision Seco Series UVRs satisfy basic surveillance requirements for the entry-level surveillance market and support smart motion detection and perimeter protection.

Key features

- Smart Motion Detection with human and vehicle classification
- 4-in-1 Adaptive signal input(TVI/AHD/CVI/IP)
- Network camera access capability
- Up to 5 MP resolution camera HD access
- Audio over coaxial
